## Academics and Social Enrichment:

Making the decision to study further at College can be a big decision. At Sussex Downs Lewes College we have the wide range of opportunities that a large modern college can offer but we also have the ambience of a small, friendly college, valuing each of our students and providing pastoral care with a specialised personal tutoring team.

Our results, retention and student satisfaction ratings are high. The student executive and the college council is active in working with us towards a constant striving to excellence, academically and in the wider enrichment offered.

## What's on Offer:

Sussex Downs College teaches you about physical, mental, emotional and sexual health, and healthy lifestyles and drugs in your tutorial sessions. Sometimes these subjects will come up in your lessons too.

We also run sports development and enrichment classes, like after school clubs, to help you get fit and be more active. There are lots of clubs and activities at the college, which you can sign up for.

## Pastoral Care and Support:

We offer expert advice and guidance including pastoral care in an extensive support service, which includes a specialist additional learning team and a personal tutor team, both of which work with students individually and in group sessions. We are also committed to ensuring our students make informed and relevant choices about how they progress from College, whether into employment or higher education.
