At **Academies**, we mentor students through our sports and education programs, working closely with them to ensure their physical, mental, emotional, and social development. Our coaching staff uses a proven assessment, prescription, application and measurement process to develop our athletes. With our guidance, athletes reach their goals step by step, day by day, and week by week. We offer full-time and weekly programs throughout the year.

## OUR VOLLEYBALL TRAINING PROGRAM

Our program consists of two unique training sessions, indoor and beach volleyball. This divided training method allows for students to become “hybrid athletes.” Our program provides our athletes double the opportunities to pursue a college and/or professional career—through our unique training sessions.

**FASTER.  
TOUGHER.  
SMARTER.  
STRONGER.**

Our high-performance program is renowned for producing not only students who are highly educated, but also volleyball players who know how to think independently. # STAYING IN THE LEARNING ZONE

Our goal and responsibility is to help our athletes reach their maximum performance. Therefore, to successfully coach, we keep our athletes consistently challenged in the Learning Zone.

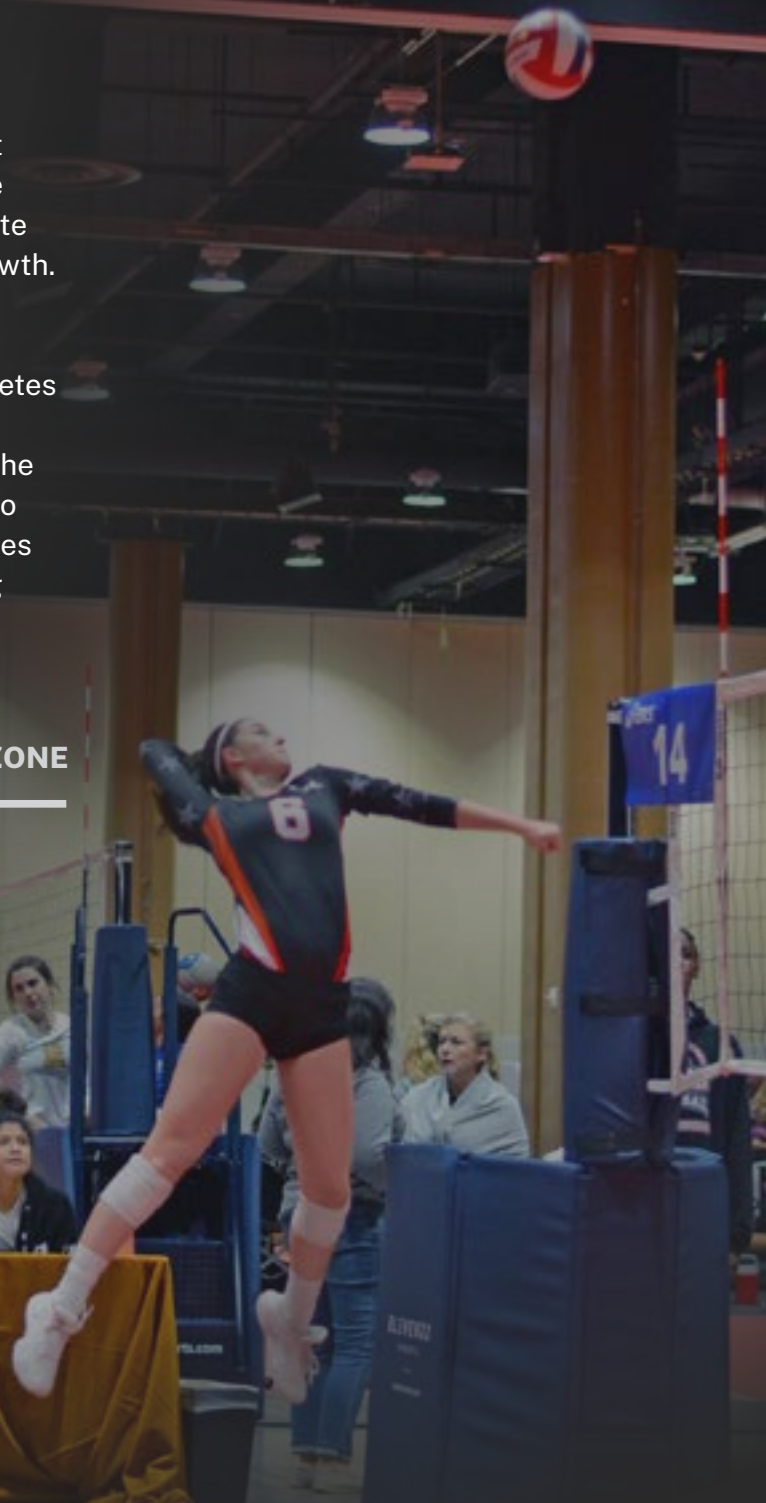

FROM BEGINNER TO PROFESSIONAL

## THERE ARE THREE ZONES:

The first is the Comfort Zone, where the athlete is not challenged. The Panic Zone is where a coach asks the player to complete an impossible task. Here the athlete gets frustrated. These two zones are not ideal for growth.

Our tried-and-true system keeps our players in the Learning Zone. This zone gradually stretches the athletes every time they're practicing. The coaches challenge the players. Whenever a player accomplishes a feat, the coaches will add a layer of difficulty by asking them to perform above their abilities. This incrementally pushes and stretches the players each time without breaking them, ensuring they continue to improve.

COMFORT ZONE    **LEARNING ZONE**    PANIC ZONE

WE MAKE CHAMPIONS

# GAME-BASED *TACTICAL WORK*

## THE ATHLETES MUST HAVE A CLEAR TACTICAL INTENTION EVERY TIME THEY MAKE CONTACT WITH THE BALL

Athletes go through many drills simulating competition, using closed skills, where the coach gives them specific patterns of play that the student has to follow. Other times the exercises are open skills, where the students take the initiative to teach themselves decision-making abilities.

Our goal is to expose the players to many situations. Volleyball requires endless adaptations, different opponents, conditions, and circumstances.

Our methodology focuses on game-based training with low-risk competition, encouraging athletes to apply what they are practicing, helping them to learn faster while enjoying the process. These fundamentals are the building blocks to develop the player's game for the future.

# STUDENT LIFE

We offer more than just a great sports program. Experience an exceptional opportunity to elevate your game while enjoying a summer filled with engaging activities. Our program offers a structured, supervised schedule featuring both on-site and off-site activities. Discover and enjoy Florida's attractions, including Islands of Adventure, Disney World, and Universal Studios, and more, along with our beautiful beaches.

A closed, gated academy with 24-hour security underscores our commitment to the safety of our young athletes, ensuring a secure environment where they can focus on their development without distraction. This stringent security measure is central to maintaining a safe, controlled space where parents can have peace of mind and students can thrive, both in their sport and in their personal growth.
