Student Progress

Throughout the programme, we monitor the academic development and well-being of each and every student carefully. We ensure that every student progresses as quickly as possible and achieves their full potential.

The level reached after studying depends on a variety of factors:

- Duration of the course – the longer the course, the better the results
- Number of lessons – a more intensive course helps you progress faster
- The language level of the student at entry

Active participation in afternoon social activities, making new friends from all over the world, immersing yourself in the local culture, as well as speaking the target language as much as possible, will greatly affect your achievements.

"When I arrived, I started in the Pre-Intermediate class. I have moved up three levels and I feel more confident in speaking – and my progress is not over yet!"

Language Learning System

We're passionate about language learning. That's why we're constantly reviewing the latest trends and methodology in the field.

Academic staff from every school participate in the research and development of our programmes. We ensure that the latest theories of language learning are considered and evaluated throughout our centres. That's why every one of our schools is a healthy environment for learning. The following points are fundamental to our language learning system:

Language Immersion

We believe that the best way to learn a language is to study in the country where the language is spoken. We want you to immerse yourself in the culture and truly 'live the language'.

Levels

Upon arrival at any the school, we'll give you a comprehensive language level test so we ensure you go straight into the right class for you. Levels have been closely matched to the Common European Framework, TOEFL iBT, IELTS and Cambridge English language assessment examinations. To move up to the next level you need to master our specific 'level objectives', which you can demonstrate by test scores and class participation.

We understand that some students learn faster than others, so our course is tailored for you as the individual. There are regular opportunities to discuss your progress with your teacher.

Through systematic testing, monitoring your class performance and constant teacher appraisal, the school academic director will track your progress and identify exactly when you have mastered the level objectives and are ready to move up to the next level. This monitoring and testing allows us to grade between and within levels, allowing you to spend more time studying with the students and materials at the level which is right for you.

Latest Materials

We're constantly reviewing the latest materials available for language learning. We provide you with what our academic team have identified as being the very best materials currently available for your level. We are also committed to providing the latest technology, utilising the most cutting edge audio, video and web based resources to bring modern, real world language into the classroom.

Cultural Exchange

As you 'learn and live the language' you will gain a greater understanding of the country in which you are studying. And as our students come from all over the world, our centres are not just places to learn languages, but are also places to meet and share experiences with people from a huge range of backgrounds and cultures.

Quality Teachers

We understand that our students' single most identifiable measure of programme quality is the teacher. That's why at we only work with dedicated, highly motivated teachers, qualified with country specific teaching credentials.

As such we have a systematic programme of teacher development and performance evaluation. All of our students are regularly invited to provide feedback so that we can ensure that your teacher meets your expectations.

(E-Learning)

Our custom built on line learning system works alongside our classes to help you maximise your time with us. Through your unique log in, you can access your test scores, prepare for and record your 1-2-1 tutorials with your teacher, and access a wealth of further learning resources to supplement and extend your in class learning.†

Your test results can also be analysed to provide unique learning objectives for you, giving you the chance to study exactly what you need in order to progress.

The classes are level based so students can move to higher levels as their skills improve. This means students who wish to study longer and consolidate and expand their knowledge of a particular area, can do so without repeating any material.

Motivating materials and imaginative, knowledgeable teachers ensure that students will find the course highly rewarding.

All evening courses offer structured language classes that cover grammar, vocabulary and pronunciation, as well as developing the four key skills (reading, writing, speaking and listening).

The focus and intensity of the evening courses varies depending on location. Contact our schools directly or visit our website for full course details and dates.

One-to-one is the fastest way to improve your language skills is through individual lessons. Individual lessons are ideal if you prefer a very personal focus on your own aims.

In addition to the in-school programme, Teachers regularly take their classes out on academic and cultural excursions to local points of interest around the city, immersing the class in the local environment and culture. These field trips ensure the application of the language skills and topics being covered that week in the class. They give students the opportunity to practice their new communication skills in and around the city while discovering its history, and its way of life.

“I don’t have words to describe and thank my hosts. They’re awesome, friendly, kind fellows, and all the good adjectives that could exist. I had a great time with them, and I’ll miss them a lot. It was not what I was expecting from an American family, and I just loved it.”
